Features
1) Qi Wireless Charge Indicator
2) Qi Wireless Surface
3) Apple Watch Magnetic Charging Module
4) DC Power In
5) Dual USB-A Outputs

Technical Specifications
Component: AWC1046
Input: DC 15V 3.5A Max
Output: 1) Qi 20W / 15W / SW
Output 2: Apple Watch Magnetic Charging Module
Output 3: Dual USB-A 12W / 2.4A
Charge Indicator: White/amber LED indicator
Dimensions: 8.6 x 4.13 x 0.50 inches
Weight: 10.6 oz.

Your wireless pad is designed to provide optimal charging for your wireless device:
- 10W Qi certified fast charging for iPhone 8 and later, Samsung S6 and later, Samsung Note5 and later, Motorola, LG, and other compatible devices
- 10W Qi certified fast charging for Samsung Galaxy S6 and later
- 7.5W wireless charging for iPhone 8 and later
- All Apple Watch Models
- Compatible with AirPods® wireless charging case, Google Pixel 3/3XL, and other compatible devices
- Output 1: Qi Wireless Charge Indicator
- Output 2: Apple Watch Magnetic Charging Module
- Output 3: Dual USB-A 12W / 2.4A
- Input: DC 15V 3.5A

Warranty
At Ubio Labs, we are dedicated to designing and manufacturing products with superior performance and 100% customer satisfaction. All of our products come with a 1 year limited warranty from date of purchase.

We are always improving our products’ features and functionality. We reserve the right to change product specifications at any time without notice.

IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

Important Safety Instructions
WARNING - When using this product, basic precautions should always be followed, including the following:
- Read all manufacturer’s instructions before using the product.
- To reduce the risk of fire or injury, always supervise children when using this pad.
- Do not connect the power supply or charger not recommended or sold by Ubio Labs to the product.
- Do not expose wireless pads to rain or moisture.
- Do not leave a power supply or charger not recommended or sold by Ubio Labs to the product where it may be accessible to unauthorized persons.
- Do not use the wireless pad in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- Do not expose the wireless pad to fire or excessive temperature.
- Exposure to fire or temperature above 122°F may cause explosion.
- The wireless pad’s working temperature is ≤104°F.
- The wireless pad’s storage temperature is ≤140°F.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved for compliance could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Phone, Apple Watch and AirPods are trademark of Apple Inc., registered in the U.S. and other countries.
